BURTON'S HILL TOP NURSERIES

J. Howard Burton

CASSTOWN, OHIO

PHONE — TROY, OHIO 28508

Berberis thunbergi nana
(Plant Patent No. 189—See page 36)

MARCH 10, 1942

WHOLESALE LIST

for the Nursery Trade

Lining Out Shrubs

Lining Out Evergreens

Lining Out Shade Trees

Finished: Shrubs, Vines,

Shade Trees, Fruit Trees
and Small Fruits

Members of

American Association of Nurserymen

Ohio Nurserymen's Association

Michigan Nurserymen's Association

Indiana Nurserymen's Association

We ship by B. & O., N. Y. C., Pennsylvania and D. T. & I. railways, by Truck Line Freight or Railway Express.

TERMS: Sixty days net to parties of approved credit established in advance of shipment. Discount for cash with order 3%; 2% for payment within ten days of invoice, 1% 30 days. C. O. D. orders must be accompanied by $\frac{1}{4}$ cash deposit. Boxing and baling are charged for at cost. For schedule of charges for new boxes see next to last page. Used boxes are less and will be used when available and practical. When cash accompanies order, boxing will be billed to those of established credit, otherwise boxing charges will be sent as C. O. D., with shipment. We assure you that this additional charge will be reasonable and at actual cost. 5 or more at 10 rate; 25 or more at 100 rate, except items of deciduous lining out stock tied in bundles of 50. On long assorted lists of lining out stock where quantities are less than 50, a higher price may be charged. Less than 5 will be charged 25% higher than 10 rate. Any possible claims for rejection or deficiency must be made within ten days after arrival of stock. All shipments travel at cost and risk of the purchaser except when otherwise agreed.

DECIDUOUS GRAFTS

The understocks for these deciduous grafts are established one year in 2½" and 2½" deep rose pots before grafting, thereby insuring a well established and pot bound plant.

<i>Viburnum burkwoodi,</i> (The pink flowers resemble those of <i>Viburnum carlesii</i> , one of its parents, but blooms occur earlier and are intensely fragrant. The foliage is semi-evergreen and is hardy. A much more vigorous grower than <i>Viburnum carlesii</i> and the long stems make it a good subject for cutting.)	30.00
8 to 12 in. grafts,	30.00

EVERGREEN GRAFTS

These grafts are out of 2¼" and 2½" deep rose pots and are on strong well established understocks of the same families, ie.: *Juniperus* are grafted on *Juniperus virginiana* understocks; Kosters Spruce on Spruce, etc.

For shipment we wrap the pot balls individually in sphagnum moss then in waxed paper to preserve the moisture and prevent undue breakage of the ball. We know of no better method of packing grafts.

TESTIMONIAL

(Here is one of many testimonials we receive from our customers)

Hilltop Nursery
Casstown, Ohio

Gentlemen:

The nursery stock you shipped us was the finest we have ever received from anybody anywhere.

You will get a good order this coming year from us.

Very truly yours,

(Name upon request)

GLOBE BARBERRY

(Plant Patent No. 189)

(*Berberis thunbergi nana*)

See Prof. Chadwick's Select List of Shrubs

Ordinary Barberry

Berberis nana
(Natural Shape)

This is a low, slow growing and compact sport of the well known hardy Barberry. It's compact, tight growth makes a trim appearance without shearing. This plant never gets out of hand as do common Barberry plants and the foliage is better than that of the parent and it has the same kind and color fruits. Its appearance is somewhat like that of a dwarf Holly or Azalea. It is undoubtedly the best permanently dwarf deciduous plant for low hedges and borders because of its dwarfness, hardiness and general permanence.

This is the first time this plant has been offered for sale. Due to its slow growth the purchaser is assured of maintenance of the present price schedule. It is suggested that as large sizes cannot well be shipped these grades be planted out for growth on as specimens.
